

## Division of Criminal Justice Services

### **Compliant NYSIBR Vendors**

New York State law enforcement agencies transitioning to the National Incident-Based Reporting System (NIBRS) must ensure their local records management system (RMS) can successfully generate and transmit a NYS NIBRS submission file to the New York State Division of Criminal Justice (DCJS). To be considered for participation in NIBRS, submission files must meet [New York State File Format Specifications](#) and comply with the [New York State's Edit Checks](#).

**Note: DCJS does not endorse any vendor that appears on this list. DCJS is simply providing a list of vendors who have successfully transitioned agencies to NYS NIBRS as a resource for agencies developing their NIBRS transition plan.**

***Agencies can select any vendor they choose, including those not listed, as long as certain specifications (which may include NY state-specific requirements) are met. Reference materials for law enforcement agencies and vendors may be found at NYS Crime Reporting - IBR Reference Materials - NY DCJS.***

The following list of vendors have successfully transitioned agencies to NYS NIBRS:

<b>Vendor</b>
CentralSquare Technologies
Cushing Systems
EM Systems, Inc.
Motorola Solutions
Niche Technology Inc.
Pamet Systems Inc.
Tyler Technologies
